XPEL ULTIMATE XT is a patented, high performance,self-adhesive, clear-coated aliphatic polyurethane film designed to protect automotive paint, and other surfaces, from harmful effects of stone chips and abrasion. It has exceptional elongation properties for ease of application which allows for single piece installations over complex surfaces. XPEL ULTIMATE XT is a very low surface energy film designed to resist staining and offers superior environmental resistance common to other polyurethane paint protection films. The clear coat employs special elastomeric polymers that allow scratches and micro-abrasions in the surface to "heal" over time, eliminating the need to polish the film to maintain a freshly installed appearance. XPEL ULTIMATE XT is coated with ultra-clear high performance acrylic adhesive which has excellent adhesion on a broad range of surfaces, while resisting disturbances during installation.

TARGET APPLICATIONS

Clear gloss polyurethane for stone chip protection, high wear, and abrasion in the automotive, motorcycle, RV, powersports, bicycle, aircraft, and other transportation markets.
